CHARTWELL CREW BOAT

FUNCTIONALITY AND RELIABILITY

FEATURES

BUILT FOR WORK

The Chartwell crew boat has been developed in close collaboration with vessel operators to ensure the vessel meets the demanding operational demands of the oil and gas sector without impacting on reliability and robustness.

The vessel provides operators with a more cost-effective, lower consumption and operational emissions alternative to the typical larger crew boats, whilst maintaining the required flexibility by offering substantial passenger capacity and large area of cargo deck, both fore and aft. The highly optimised hullform offers a high service speed, outstanding comfort and reduced weather downtime.

LOA	30.8 m
BOA	7.0 m
PASSENGERS	70
CREW BERTHS	6
SPEED	30+ kts Max 28 kts Service
GYROSTABILISER	As option
AFT DECK CAPACITY	20 T
FWD DECK CAPACITY	3 T
FIFI	600 m3/hr
RANGE	350nm at service speed
