

CHARTWELL MARINE

CHARTWELL DAUGHTER CRAFT — 9M

VERSATILITY AND FUNCTIONALITY

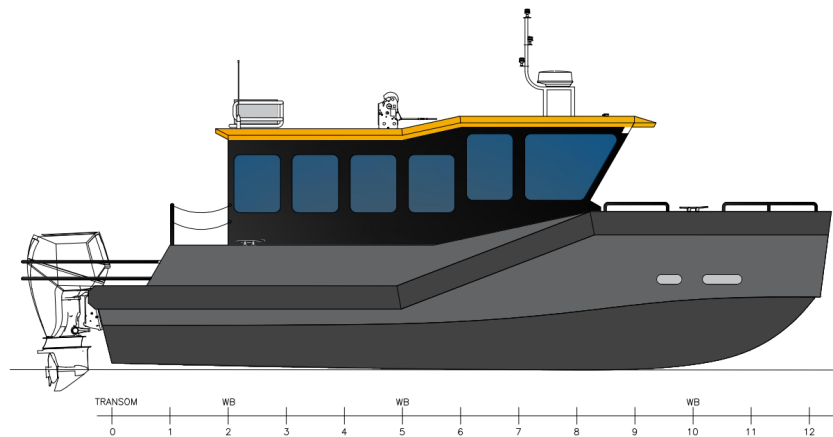

FEATURES

OPTIMISED FOR EFFICIENCY

The Chartwell 9m Daughter Craft with integrated bow door has been developed to ensure the vessel meets the operational demands expected of a multi role work boat. The vessel hull form has been extensively tested using CFD to develop a highly effective vessel. The vessel is equipped with a single point lift for offshore operations from a mother ship.

The 9m Daughter Craft utilises the next generation of diesel outboard propulsion offering the efficiency of diesel and the flexibility of an outboard solution. An inboard propulsion system is also available. The vessel features a smart but rugged interior for easy and safe operability.

LOA 9.8m

BOA 3.1m

MAX DRAFT 0.75m

SPEED Up to 25 kts

POB 10 Persons

CODING MCA WORKBOAT CODE 3 - Cat 2

ABOUT

CHARTWELL MARINE

Chartwell Marine is a pioneer in next-generation vessel design. A reputed naval architect with an industry-leading track record designing award-winning high-speed vessels, Chartwell Marine supports ambitious boat builders and vessel operators around the world with specialist, independent design and consultancy services.
