

# CHARTWELL MARINE

## CHARTWELL 12 MONO

REFINING THE FORMULA FOR OFFSHORE ENERGY SUPPORT

## FEATURES

# BUILT FOR PURPOSE

The Chartwell 12 Mono has been developed to service as a near shore CTV and as an offshore daughter craft operating from a SOV mother ship. The vessel has been extensively tested using CFD and tank testing to develop a highly capable and effective vessel. With a range of propulsion configurations including hybrid arrangements it can be configured to meet the demands of any operator.

The Chartwell 12 Mono can be configured to utilise a combination of diesel and electric outboards to provide a modular cost efficient package while reducing the diesel run time by up to 33% compared with a conventional diesel vessel carrying out similar operations.

LOA	13.5m
Lhull	11.5m
BOA	4.2m
DRAFT	0.8m approx.
DISP.	12.5-13.5t (subject to configuration)
PAX	8-12 POB (subject to configuration)

## ABOUT

# CHARTWELL MARINE

Chartwell Marine is a pioneer in next-generation vessel design. A reputed naval architect with an industry-leading track record designing award-winning high-speed vessels, Chartwell Marine supports ambitious boat builders and vessel operators around the world with specialist, independent design and consultancy services.
